

# BE INFORMED

The owl can move its head 270°. Combined with extraordinary vision and excellent hearing, it can pinpoint and retrieve its prey before they even sense they're in danger.

Our customers rely on DNM Technology when faced with the need to increase profits, reveal new business opportunities and manage risk.

DNM Technology gets the right information to the right people by consolidating data from your ERP, CRM, production systems and spreadsheets.

**For more information**, we invite you to join us at our breakfast seminar in Dublin, held in conjunction with Microsoft and Grant Thornton, one of the leading providers of auditing, financial and advisory services.

To register, email us at [be.informed@dnm.ie](mailto:be.informed@dnm.ie)
